

Paul Van Dyk, The Other Side

When this broken trough
I will cant with you
When I wait my longest time
Daylight brings the great divide
We can like the rain
Whispering your name
Long to be with you divide
Believe the sunrise
When I reach the line
I will see you on the other side
See you on the other side
When I closed my eyes
See you on the other side
When I closed my eyes
Speeding City lights
Leavening week tonight
Oh I miss you once inside
Stars cannot to shine
Across the waterline
I can feel you on the other side
See you on the other side
When I closed my eyes
and I reached the lights
See you on the other side
When I closed my eyes
See you on the other side
When I closed my eyes
and I reached the lights
See you on the other side
When I closed my eyes
