

Paul Van Dyk, The Other Side (Original Mix)

Wind has broken through
I will comfort you
When I wake, my tongue is tied
Daylight brings the great divide
Weeping like the rain
Whispering your name
Long to be reunified
Believe the sun will rise
When I reach the light
I will see you on the other side

Speeding city lights
Leave me weak tonight
Oh I miss your warmth inside
The stars come out to shine
Across the waterline
I can feel you on the other side

See you on the other side
When I close my eyes
