

# Paul Van Dyk, The Other Side (Radio Edit)

Wind has broken through  
I will comfort you  
When I wake, my tongue is tied  
Daylight brings the great divide  
Weeping like the rain  
Whispering your name  
Long to be reunified  
Believe the sun will rise  
When I reach the light  
I will see you on The Other Side

See you on The Other Side  
When I close my eyes  
See you on The Other Side  
When I close my eyes

Speeding city lights  
Leave me weak tonight  
Oh I miss your warmth inside  
The stars come out to shine  
Across the waterline  
I can feel you on The Other Side

See you on The Other Side  
When I close my eyes  
And I reach the light

See you on The Other Side  
When I close my eyes

See you on The Other Side  
When I close my eyes  
And I reach the light

See you on The Other Side  
When I close my eyes...
