

Paul Van Dyk, Time Of Our Lives (Feat. Vega 4)

There's a time for us to let go
There's a time for holding on
A time to speak, a time to listen
There's a time for us to grow

There's a time for living low down
There's a time for getting high
A time for peace, a time for fire
A time to live, a time to die

A time to scream, a time for silence
A time for truth against the lies
A time for fate, a time for science
There's a time for us to shine

There is a time for mixed-believing
There's a time to understand
A time for hurt, a time for healing
A time you run, to make a stand

Oh, this is the time of our lives (8x)
