Paul Van Dyk, Time Of Our Lives (Feat. Vega 4)

There's a time for us to let go There's a time for holding on A time to speak, a time to listen There's a time for us to grow

There's a time for living low down There's a time for getting high A time for peace, a time for fire A time to live, a time to die

A time to scream, a time for silence A time for truth against the lies A time for fate, a time for science There's a time for us to shine

There is a time for mixed-believing There's a time to understand A time for hurt, a time for healing A time you run, to make a stand

Oh, this is the time of our lives (8x)
