Paveu Ostrovsky, Restart

big wheel
circles circles circles
circles circles circles
around my plans
around my dreams
around around around around around

oh!
violence, violence, violence, violence
humble, humble, humble, humble
around the world
around the world
around around around around around

oh!
carousel carousel carousel carousel
carousel carousel carousel carousel
circles circles circles circles
around my plans

take me back
and restart
wake my up
and delete everything
and replace every rib
and repair every eye
and reform every bot
and erase every pain

so look out!
i'm going to explode
i'm begging for anew
trying to reload
and then go back into this big wheel

take me back
and restart
wake my up
and delete everything
and replace every rib
and repair every eye
and reform every bot
and erase every pain
