## Pearl Jam, Green Disease

It's a disease,... and they're all green It emminates from their being Agitation,.. with occupation

And like weeds,.. with big leaves Stealing light from what's beneath Where they have more,... Still they take more

Course I know,.. then I don't There's a stoway with my throat It's deceiving I don't believe him

We can scream,.. out our doors Behind the wall a fat man snores In his dreams he's,... Choking on leaves

Well I guess
There's nothing wrong with what you say
Believe me
Just asking you to sway
No white
Or black
Just grey
Can you feel this,..
World with your heart and not your brain?
