

Pectus, Mystic

I know exactly what you want
and there aren't any clouds
I'd like to fly every day
I'd like to fly every day
when I'm whispering to you
I wish I remembered
there aren't any clouds
there aren't any clouds
let's go now
and we will fly
every time looking down
to feel better for a while
let's go now
and we will fly
every time looking down
to feel better for a while
it's my mystic time /x2
let's go now
and we will fly
every time looking down
to feel better for a while
let's go now
and we will fly
every time looking down
to feel better for a while
it's my mystic time /x4
