

# Pedro The Lion, Invention

crazy people know a special place to go when the pressure's on  
neurons re-align til the feelin is fine,  
or trouble is gone  
they're in the business of inventing saviors

there's always trouble  
so tell yourself again that help is on the way  
and safety abounds  
and safety abounds

when you need some kind of guarantee that you're protected  
you start to trust the things that deeper comfort brings,  
before you've checked it  
you might be waiting for a long time.

there's always trouble  
so tell yourself again that help is on the way  
and safety abounds  
that safety abounds  
that safety abounds  
that safety abounds
