

# Pedro The Lion, Letter From A Concerned Follower

it's weird to think of all the things  
that have not been keeping up with the times  
it's ten o'clock the sun has now  
just begun to set the western hills on fire  
i hear that you don't change  
how do you expect to keep up with the trends  
you won't survive the information age  
unless you plan to change the truth  
to accommodate the brilliance of men  
the brilliance of men  
some folks think we're better now  
social evolution's new synthetic will  
will keep us on a straighter path  
as better men use brand new math  
with no wrong answers  
i'm just a little bit worried  
do you have some sort of plan  
have you been finally defeated  
by the cunning of these fully evolved men  
i hear that you don't change  
how do you expect to keep up with the trends  
you won't survive the information age  
unless you plan to change the truth  
to accommodate the brilliance of men  
yeah, the brilliance of men
