

Pedro The Lion, Letter From A Concerned Follower

it's weird to think of all the things
that have not been keeping up with the times
it's ten o'clock the sun has now
just begun to set the western hills on fire
i hear that you don't change
how do you expect to keep up with the trends
you won't survive the information age
unless you plan to change the truth
to accommodate the brilliance of men
the brilliance of men
some folks think we're better now
social evolution's new synthetic will
will keep us on a straighter path
as better men use brand new math
with no wrong answers
i'm just a little bit worried
do you have some sort of plan
have you been finally defeated
by the cunning of these fully evolved men
i hear that you don't change
how do you expect to keep up with the trends
you won't survive the information age
unless you plan to change the truth
to accommodate the brilliance of men
yeah, the brilliance of men
