

# Peel, Everlive

Storm rages  
Trapped and caged  
In light from the dying day  
We'll crawl in the dead of the night  
Breaking' out with our hands  
Whatever, whenever we go  
Whatever it all ends undone  
Whatever, whenever we go  
Whatever it all will go on  
Ever live it all again

If we could be the same again  
Then you and I would fall again  
Never live it all again  
Turn to me  
Blessed and breathing  
Cry for the sun to rise again  
Now tomorrow it won't come  
Wear it off, let it go  
Whatever, whenever we go....etc  
(we know where we go, where we go.....)
