

# Peel, Loaded

I am a friend  
You watch me slip again and again  
I know your name  
You tore me up, left to bleed  
But I still want you.....  
I come, it will blow  
Yeah, I'm clear like rain, but I feel like snow into the bends  
I can't see where it all ends  
I'm wide awake

But still asleep  
Again the buzzing in my ears  
Yeah, I'm a loaded,loaded,loaded,loaded gun  
Pull the trigger, I will shoot you one by one  
Here comes the day  
Will sweep my sorrow and lies away  
The ground is so cold  
In the morning sun, feel overthrown  
I'm wide awake.....etc
