

# Peel, Zena's Song

Boy....

The milkyway without the light  
Eyes closed replay with head in hands  
Trapped in the corner without sight  
The sky's torn open when you cry  
I can grow wings he said  
Just like magic go away  
I sometimes wish that I was dead  
He said

If....

Yeah, if I could you know I would  
Take on the fear that clouds your mind  
Could be the one that maps the sun  
Let me in I'll be the one  
I can grow wings he said  
Just like magic disappear  
I sometimes wish that I was dead  
He said

Come lay my burdens to the ground  
Yah, wrap me in so safe and sound  
All coloured dreams torn years ago  
Now, I can't stay, I can't stay, I can't stay  
I can't stay this long

Go....

Go find the space, the love to breathe  
No need to give yourself away  
Yeah, leave behind these tired streets  
Please erase those lying lines  
I can grow wings.....etc
