

Pendulum, Colourfast

It's running cold in Miami tonight
Out on the block, turn out your mind
Take a number, head on inside
Shots on the left, lean to the right

4am and it's murder for hire
Keep your head straight, build an empire
I feel a burn in the air tonight
Take out an arrow, put out your eyesight

Nothing wrong but we can pretend
Take off your dress, lie to your friends
It's a murder, I'm on the edge
Hairline trigger, cut to the end

Paranoid and I'm holding my breath
Got a straight flush close to your chest now
Such a mess but I'm feeling alive
Burn down your house, put out your eyesight now
