

Pendulum, Come Alive

Slave to a vision
Stranger from the outside
Eyes against your prism
Caught you in the headlights

Head against a wire
Helping me get closer
Set yourself on fire
And show me when it's over

Cause i come alive
When you're alone
You've got nothing to fear
Restless tides of your shadow
This timw you'll know i am here

Hail to teh seeker
Waiting on the breakhtrough
In for every hour
This is what its coem to

Cause i come alive
When you're alone
You've got nothing to fear
Restless tides of your shadow
This timw you'll know i am here

Cause i come alive
When you're alone
You've got nothing to fear
Restless tides of your shadow
This timw you'll know i am here
