

Pendulum, The Other Side

Come on down to the other side
Come with us through the gates of hell
We will drag you from where you are
To where you belong

Come on down to the other side
Come with us through the gates of hell
We will drag you from where you are
To where you belong

There's nothing... To fear
Your saviours... They're here
The ship is coming down
The ship is coming down
The ship is coming down
Coming down down

You... You are so precious
A diamond in the rough
And when you try to escape
I'll be holding on

But I can't sleep until this is done
Everybody else bury my soul

Come on down to the other side
Come with us through the gates of hell
We will drag you from where you are
To where you belong

Come on down to the other side
Come with us through the gates of hell
We will drag you from where you are
To where you belong

We... are in your spirit
We're everywhere you turn
From the cover to the cover
The cover to the cover
Your lover (Be your brother)
To your mother (The others)

You... you are so precious
But now you've gone away
And I am falling apart
Under the waves

But I can't sleep until this is done
Everybody else bury my soul

Through the gates of hell
We know you

The ship is coming down
The ship is coming down
Coming down...
Coming down...
Coming down...
Coming down...
Coming down...
Coming down...
Coming down...

...Down to the other side

Come with us through the gates of hell
We will drag you from where you are
To where you belong

Come on down to the other side
Come with us through the gates of hell
We will drag you from where you are
To where you belong
