

Pennywise, Salvation

I want your salvation - we need some liberation
And I believe in history yeah
It's time to make a difference and it's plain to see
I just want to live my life
Do you know what's wrong or right?
All we get is talk from you
Imagine a life without rules
I want your salvation - I need your creation
I don't want to die an abomination
Why can't you see - I got to be free
I'm never gonna stop being me
I want some indication and we need consideration
We're all the sum of humanity
How long will it take before you hear our pleas?
We just want to live our lives
Is there any hope in sight?
Can't you see our point of view?
How long can you hide from the truth?
What you want you might never get it
Till you try - so reach and grab it
Live your life for no real reason
I can't believe all the things I'm seeing
Represent it stands to reason all your life I call it treason
So live your life for no real reason
I can't believe all the things I'm seeing
