

# Pennywise, Try To Conform

try - still you got nowhere  
try and stay in line  
and live by all the rules  
they say to follow  
try to conform in your head  
they'll feed you bullshit  
you should swallow  
try their style don't give up  
you will blend in  
it's not tough to give up  
when you've tried to try for so long  
I can't wait to assimilate  
just try to stop me  
(you willing try)  
but you don't know  
pick yourself up by those boot straps dude  
and try  
try still you get nowhere  
try and stay in line  
and other forms you'll never know  
and if you got something to say  
I got a shotgun for a muzzle  
try their style don't give up  
you will blend in  
just try to conform  
it doesn't feel the same
