

# Pentangle, Springtime Promises

Summertime is with us once again  
Flowers bloomin' everywhere again  
And the cold days of winter are behind us now  
And the springtime promises all come true

Trees and grass and bushes green again  
The sky so blue, I don't remember when  
The cold days of winter took the sun away  
But the springtime promises all came true  
It's summer time now so please don't throw 't away

Winter will be with us once again  
Flowers die'n everywhere again  
And the warm days of summer will be far behind  
And the springtime promises soon forgot

Grass and bushes withered, and the trees are bare  
Dark and cloudy skies and people in despair  
And the warm days of summer seem so far away  
And the spring time promises still forgot  
It's wintertime so you've got to wait awhile  
For the springtime promises to come true

Now the new born year has come once more  
Gentle showers awake us as before<sup>1</sup>  
It's the time when all promises are now made true  
And the springtime sun returns anew

Soon the earth will turn to green again  
Flowers will burst forth soon to bloom again  
The warm days of spring time tell us all is love  
Can't you feel your promises will be true  
It's spring time now  
Be happy today
