

# Penumbra, Moaning On Earth

His tears are running in the fire ,  
whose flames are burning his eyes  
He's running on some dusty waves  
believing He can't reach the sea,  
lost in silent Height invaded  
With a steaming mist and  
by the wind, swept away

Sad ephemeral creature,  
moaning on earth  
His sight gets lost on those immensities

Do you hear the echo of my terrified voice ?  
Do you hear the echo lost and despaired ?  
Do you hear the sea screaming its distress ?  
Do you hear the sea facing my sadness ?

His consciousness suddenly realizing  
After the peak, the end of humankind, for ever

Never more tremble faced  
with devils disguised in traitor angels  
Moving me away of my body sliding on the floor  
With my wings ripped by these mortal feeling,  
ho I hear some bells ring  
In the distance, is it the time of my destiny?

Phantasmagoric monsters in a crazy dance fascinate me  
Enchanting me, I've buried my dreams in this oblivion field
