

People In Planes, Last Man Standing

I am the last man stand survivor
I am the last man home
I'll be the last man stand survivor
I'll be the last man home x2
You're all alone sitting in the corner
You've got a killer stare
Who's messing round with you in the corner?
He better say his prayers
You found yourself a new sensation
But baby, it's a jungle out there
The ones you counted on are all but gone
Baby, it's a jungle out there
I am the last man stand survivor
I'll be the last man home x2
I wish you would try and look,
A little more excited
Let me stay, let me 'cause I'm coming anyway
I am the last man stand survivor
I'll be the last man home x3
yeah
I am the last man stand survivor
I'll be the last man home
You found yourself a new sensation
But baby, it's a jungle out there
The ones you counted on are all but gone
Baby, it's a jungle out there.
