

# Pepper, Crazy Love

She loves the party, I can see  
Her dress is worn perfectly  
A speaker shuffle her dancing feet  
My tongue trips me up when I speak  
Now she's the type of girl that could only be trouble  
Looking the part, from the start she hands me a green bottle  
She asks me for the time, I reply no thanks I'm fine  
Then she laughs and asks what I was thinking of  
I want a part of your crazy love, it's really all I am ever thinking of  
I need a part of your crazy love, it's a crazy love, it's a crazy love

Not so hard to persuade  
She gives a smile puts it away  
And that's enough for me too  
Do what you want to do  
Soft spoken hanging thru the morning  
Really don't pay attention to the breakfast she's burning  
The food is on my plate, I lie and say it's great  
Then she smiles and asks what I was dreaming of  
I want a part of your crazy love, it's really all I am ever thinking of  
I need a part of your crazy love, it's a crazy love, it's your crazy love

I'll finish the dishes put on some records if you know how  
Makes the selection singing dread natty dread now  
She threw me again, again extended don't let it in  
This is exactly what I was thinking of, whoa yah  
I want a part of your crazy love, it's really all I am ever thinking of  
I need a part of your crazy love, it's your crazy love, it's your crazy love whoa  
I need a part of your crazy love, now baby just give me, baby just give me  
Your crazy love
