

# Pepper, No Control

Hey!

I got the right of way, and that's all you got to say

I been thinking about, thinking about somethings I thought I'd never be thinking

Too many drugs dropped into my mouth looking for something new but I end up drinking

Ignore the warnings on the shore, i'll take my chance swim into danger

I wanna taste life more and more but you need a little risk for the perfect mixture

This is your station under no control, broadcasting for you to let go

This is your station under no control, get up, get up, get up, get up, get up enjoy the show

Hey!

I got the right of way, that's all I got to say

Jesus gone just a flame and a bomb now how do you explode unstable

Big suit with a brief case I'm holding contracts stating how your labeled

Holding on to a phone on hold while I'm told to wait for the next operator

I wanna taste life uncontrolled, on no here I go I hope to see you later

This is your station under no control, broadcasting for you to let go

This is your station under no control, get up, get up, get up, get up, get up enjoy the show

Hey!

I got the right of way, that's all you got to say

This is your station under no control, broadcasting for you to let go

This is your station under no control, get up, get up, get up, get up, get up enjoy the show

This is your station under no control, broadcasting for you to let go

This is your station under no control, get up, get up, get up, get up, get up enjoy the show

Everything that I would like to see, broadcast this emergency
