

Per Gessle, Stuck Here With Me

you're stuck here with me
stuck here with me
all night baby
the reason you see
the reason might be
I'm lonely baby

I saw the lovelight in your eyes
like crazy fireworks
the moon and the sun
melting into one

where do you go
where do you go
all night baby
the feelings all low
all night baby

I need the lovelight in your eyes
like crazy fireworks
the stars and the sun
melting into one

I want the lovelight in your eyes
the heartshaped carnival
of flowers and fun
melting into one

na na-na na-na na-na
