

Per Gessle, Wish You The Best

Stay forever
Stay a little while
I'm pleased to see you
I'm pleased to see you smile
September clouds
Shaped just like shells
September rain
Should fall somewhere else
It's been a long time
A lonely long time for me
I've missed your body
I've missed your company
There was a girl
Who looked just like you
(Looked just like you)
There were some nights
You passed thru my room
And I walk around this small town
Like small town people do
You would never stay for long
Always passin' thru
Shine forever
Shine a little while
I'm pleased to see you
I'm pleased to see you smile
This distant dream
It might as well rest
(Might as well rest)
I wish you peace
I wish you the best (I wish you the best)
(I wish you the best, oh I wish you)
Wherever you'll go
(I wish you the best)
Whatever (whatever, whatever)
Oh I wish you, I wish you the best
Wherever you'll go
I wish you the best
from album "The world according to Gessle"(1998)
