

Perry Como, How Beautiful The World Can Be

How beautiful the world can be when it cares,
The sky can be so blue,
That ol' sun can shine for you,
This crazy world can turn around,
An' change it's point of view!

And all the stars from here to Mars will be smilin'
They'll brighten up the night so you can see,
When you find someone to love,
Then you'll find the secret of,
How beautiful the world can really be!

(Just see . . .
how beautiful the world can be when it wants to . . .)
When it wants to!
(How beautiful the world can be when it cares . . .)

When it cares!
(The sky can be so blue,
That ol' sun can shine on you . . .
This crazy world can turn around . . .)
An' make our dreams come true!

And all the stars from here to Mars will be smilin'
They'll brighten up the night so you can see,
When you find someone to love,
Then you'll find the secret of,
How beautiful the world can really be . . .

How beautiful the world can really be!
(Beautiful World!)
