

Perry Como, Love Is Spreading Over The World

The hills are alive and the earth is hummin'
love is spreadin' over the world!
Put your ear to the ground, you can hear it comin'
love is spreadin' over the world!

Hear it in the trees as the breeze is blowin'
see it in the fields where the grass is growin'
Pretty soon your heart will be over-flowin'
with love, sweet love!

Shout it down from the highest steeple
love is spreadin' over the world!
Give the word to all of God's people

love is spreadin' over the world!

Everybody is somebody's brother
now is the time to love one another
Hand in hand we can make it together
love is spreadin' over the world!

< repeat complete >

. . . love is spreadin' over the world!

Music by Neil Sedaka
with lyrics by Howard Greenfield
