

Perry Como, My Little Baby

My little baby, loves me loves me,
my little baby, needs me needs me,
my girl and I can't stay apart,
because she always wants me wants me
wants me near her heart!

My little baby's lonely lonely
unless she feels I love her only
my little girl just won't feel right
unless I'm near enough to hug an' hold her
squeeze her tight!

I'd like to please her,
I never tease her
but always tell her that I care
she's such a treasure
I get such pleasure
knowin' that her love is somethin'
I'll always share!

My little baby thrills me thrills me
because her lovin' chills me chills me
and all my life I know that she'll be

the only one who'll ever be the only one for me!

(My little baby loves me, yes she does!
My little baby loves me, yes she does!)

I'd like to please her,
I never tease her
but always tell her that I care (I care, I care!)
she's such a treasure
I get such pleasure
knowin' that her love is somethin'
I'll always share!

My little baby thrills me thrills me
because her lovin' chills me chills me
and all my life I know that she'll be
the only one who'll ever be the only one for me!

. . . the only one who'll ever be
the only one for me!
