

# Perry Farrell, Shekina

Come down, come down Shekina  
We'll engage eventually  
I will tick and tock with you  
Shake your mother hips for me  
Outside heaven drizzles  
Grow us up a field of apples

As you like it  
That's how I like it

Tell me, tell me what are you thinking?  
I just like the sound of your voice  
Whisper to me what you're after  
I'll try and get it for you  
That tiger's tooth when you smile  
And some things I can't tell you

As you like it, Havah  
It's how I like it, Havah

Dreaming  
I'm dreaming  
There's no body here but us  
Ignited  
When we ignite  
And nobody stands between us

You want to be caught; I'll catch you  
What you want, I want too  
As you like it, I like too

Time together is breezy  
I'm without you thin as the air  
Missing; a bass from a drum  
Singer wants a harmony  
I'll put my soul inside you  
Put me there and let me grow

As you like it, Havah  
It's how I like it

Come down, come down Shekina  
We'll engage eventually  
That's how I like it
