

# Pestilence, Chemo Therapy

The process of life  
A future at distance  
Time does not run  
except for your own existence  
Stages set to pass with your fantasy  
Dreams to realize, visions to see  
Altering goals  
Aim to perfection  
Absorb all there is  
To achieve satisfaction  
Subjected to obsessions  
Avoiding each choice  
The truth given to you  
proclaims through your voice  
A life to learn...  
Ideals that collide  
with what you are about  
Captured in imagination  
Reality hands you the key to get out  
Permanent ignorance, products of symmetry  
United pride, collective stupidity  
Enrich your mind with the wisdom you'll find  
through your changing perspectives
