Pet Shop Boys, Home

We all have a dream of a place we will love The fire is burning and the radio's on Somebody smiles and it means "I love you" But sometimes we don't notice when the dream has come true

You've got a home here Call it what you want You've got a home here to return to when you can't face the world and you need some support to succeed You've got a home

We all make a mess of our lives from time to time It's part of the process that you stumble as you climb And if you ever feel the pain is far to big o' deal I say with pride "!'Il be on your side"

You've got a home here Call it what you want You've got a home here You're gonna want it when you can't face the world and you need some support to succeed You've got a home You've got a home
