

Pet Shop Boys, Luna Park

(Tennant/Lowe)

Shadows on the sun
Another night's begun
It's always dark
In Luna Park
Wind across the moon
Electric storms and soon
A flying spark
In Luna Park

And when we're getting higher
We're happy
Somebody's eating fire
We're happy
The big wheel in the sky
Will make you scream

Come on, join a line
The ghost train leaves on time
It's always dark
In Luna Park
On the shooting range
The plastic prizes never change
So make your mark
On Luna Park

And when we're getting higher
We're happy
Somebody's eating fire
We're happy
The big wheel in the sky
Will make you scream

Thunder. I wonder?
A storm will come one day
To blow us all away
Like dust on the moon
In Luna Park
It can't be dark
Too soon

A storm is coming soon
Like dust on the moon

Every night we go
To the latest horror show
And hear the screams
In Luna dreams
Fortune-tellers muse
On palms that bode bad news
The future's dark
In Luna Park

And when we're feeling scared
We're happy
With circuses and bread
We're happy
The whirling fair machines
Are all we need

Thunder. I wonder?
A storm will come one day
To blow us all away

Like dust on the moon
In Luna Park
It can't be dark
Too soon
