

# Pet Shop Boys, Positive Role Model (Closer To H

Here I stand  
where I planned  
Given one more chance  
Take it then  
start again  
Time to join the dance  
All I've seen  
and all I've been  
led me here today  
Forget the lies  
the tears I've cried  
I'm doing it a different way

I want a positive role model  
I want a positive role model

Reinvention  
my intention  
How to make the change?  
We're children then  
boys to men  
It doesn't feel so strange  
A broken heart  
for a start  
A new identity  
Feel the love  
up above  
watching over me

I want a positive role model  
I want a positive role model

My reflection on the street  
Is that the way I walk?  
Introspection as I speak  
I need to change the way I talk  
In a changing world  
there's so much you could be  
Why can't you choose your self  
like your enemy?  
Have you ever imagined  
a new you?  
I could be someone else  
The question is: who?

I want a positive role model  
I want a positive role model  
I want a positive role model  
I want a positive role model

Give me hope  
Give me all your love  
Give me hope
