

Pet Shop Boys, Was That What It Was?

Think again - remember what we said
Promises - how we both forget
Even now I see it in your eyes
When and why, and where was paradise?
Something's been and gone
When all is said and done; we were wrong
Was that what it was?
Was that what it was?
Think again - remember what you said
You'd never leave - if you did I wouldn't care
I never dared to ring you up and ask you why
Too proud to beg or hear you cry
Something's been and gone
When all is said and done; we were wrong
Was that what it was?
Was that what it was?
I don't need any more in my life
Did you need something more in your life?
Was that what it was?
Was - THAT - what it was?
Something's been and gone
When all is said and done; we were wrong
Was that what it was?
Was that what it was?
