

Pete Droge, Small Time Blues

Deep in this melody's a cool fire
Longing to stay with you
So wide awake and feeling inspired
So much that we can do
I wanna hear you tonight
Wrapped up in low candle light

Please stay I wanna hear you play
The small time blues
That's all we've got tonight
You and me, we're bound by harmony
This wild desire is fed by reaching higher
And we're still reaching higher
With them small time blues
Small time blues

Here in my hide away I'm alright
Safe in this song with you
Oh, the sweet sound we make is locked up tight
All that we sing is true
You count it off and we start
We know this number by heart

Please stay I wanna hear you play
The small time blues
That's all we've got tonight
You and me, we're bound by harmony
This wild desire is fed by reaching higher
And we're still reaching higher
With them small time blues
Small time blues
