

Pete Murray, George's Helper

People

This is what I say tonight

Messed up

After that I'm much too bright

You all just sit here smiling and I

Cannot control myself when I know I'm right

Oh and I can't help you tonight

Here it comes

Falling down on your face

Sometimes I just feel you're out of place

Hey George

I think I can help you now

Remember

You brought this upon yourself

You all just sit here smiling and I

Cannot control myself when I know I'm right

Oh and I can't help you tonight

Here it comes

Falling down on your face

Sometimes I just feel you're out of place

You always end up with egg on your face

You all just sit here smiling hey

You all just sit here smiling hey

You all just sit here smiling hey

You all just sit here smiling

Hey George

I think I can help you now
