

Pete Murray, Saving Grace

I Got you, You know I heard you say
Blossom until a beautiful day
The sunlight keep sighing on my face
And I would see ya even in deep outer space

And all and time you know I'll see you again and again
And every night I'm gonna hold you and hold and then
Before the line I will rescue and than we'll begin
Start it all over again

I love ya and how you clear my way
Guide me until a brand new day
And your eyes you know I found my place
See you, you were my saving grace

And all and time I'm gonna see you again and again
And every night I'm gonna hold you and hold and then
Before the line I will rescue and than we'll begin
Start it all over again

Don't ever wanna miss you
Don't ever wanna forget you the way you are
the day

And all and time I'm gonna see you again and again
And every night I'm gonna hold you and hold and then
Before the line I will rescue and than we'll begin
Start it all over again
