

# Pete Townshend, Alan Cohen Speaks

Baba was unveiled as to his divine consciousness and function at age of 19  
When a Sufi perfect master named Baba John kissed Him between the eyes  
And Baba said this kiss symbolically showed him who in fact he really was  
The next nine months he neither slept nor ate.

His Mother was disturbed by this, all mothers would be  
And after seven years of working with, the five perfect masters of the time  
Baba came down to share,  
all earthly consciousness as well as the consciousness of infinity.

As you'll be able to see He has a fantastic sense of humor  
And God certainly needs one Baba says

Baba says he especially loves children  
Because it is the purpose of people too become totally childlike, but with full consciousness.  
It is a Birthday party!
