

# Pete Townshend, Never Ask Me

I passed her once, I passed her twice  
Your first reply, just seemed as cold as ice  
You never ask me  
If you loved me

I was in doubt, I begin to shout  
She kept on laying the same line out  
You never ask me  
If you loved me

She said never ask me, If I love you baby  
What do you really think, I'm going to say  
You never asked me, If I loved you  
Cause if you don't know now You'll never will  
My words are still, Just words until.

Just tell me once, just tell me twice  
And baby baby I'll fly to the heights  
You never asked me  
If you loved me

I have you near, I kiss your ear  
But I'm so insecure, I just gotta hear you saying  
You never ask me  
If you loved me

I just got to pin her down  
My heart bleeds for the sound  
Of her shouting out she loves me  
As he is I sit in guess

My head's in such a mess  
What's the use to hold truth above me  
Does she really love me

Never ask me  
Never ask me  
Never ask me

You never asked me, If I loved you  
Cause if you don't know now You'll never will  
And words are still, Just words until.

I asked you once, I asked you twice  
Your first reply, just seemed as cold as ice  
Never asked me  
If I love you

I'm in such doubt, I got to shout  
You keep on laying the same lines out  
Never ask me  
If I love you

Please tell me  
Never ask me  
Please tell me  
Never ask me  
Please tell me  
(whispers)  
I love you  
I love you
