Pete Yorn, Same Thing

Shame, pass the ticket along Are you outside or inside? You are in. So what you want to know? That everybody wants you? You're old enough to say What's really on your mind Shame, has to take it alone Are we not for between us We are here So what you gonna do When everybody loves you? You're old enough to know What's really on their minds They wanted the same thing In love with the same thing They wanted it all So what you gonna do When everybody hates you? You're old enough to have known What was really on their minds They wanted the same thing In love with the same thing In love with the same thing They wanted the same thing In love with the same thing Wanted the same thing They wanted it all
