

# Peter Andre, Drive Me Crazy

Girl, you know you drive me crazy  
Girl you're the one  
Who makes my heart burst out with joy  
When you, share a smile  
You melt the heart of every boy

Stay with me  
I promise it will only be for better  
Can't you see I'll never let you go  
Baby let me go know  
If you will stay with me forever more

You drive me crazy  
And I want you girl  
You drive me crazy

And I need to have you by my side  
Right here girl you drive me crazy  
You drive me crazy  
I just can't last without you one more night

Girl don't you know  
There ain't no sunlight when you're gone  
And I'll get on my knees  
And pray for us to be as one

Stay with me  
I promise it will only be for better  
Can't you see I'll never let you go  
Baby let me know  
If you will stay with me forever more
