

Peter Andre, Funky Junky

Tryin' to do my own thing is very hard to do
Any style is my thing being funky through and through
I've come on up with something that's pretty fly and new
So get your butt on up here so you can do it too

Move it to your left and then you move it to the right
I wanna see your body move- I think you've got it right

CHORUS

Do the Funky Junky (mm)
Let's do the funky Junky
Do that funky junky baby
Let's do the the funky junky (ahh)

Everytime I get the urge you see my body move
I wanna do that junky- I can't resist the groove
People always seein' me and laugh with full intent
Then I see them doin' it they- sure ain't heaven sent

Gotta do that funky so that they will understand
I saw them pick it up and move- I think they got the hang

CHORUS

I wanna see your body
I think you oughta show me
I wanna see you move that body baby from side to side
I think you oughta show me
and the men they do it
I wanna do that funky junky baby then I'll make you mine

Move it to your left and then you move it to your right
I wanna see your body move- I think you've got it right!

CHORUS
