

Peter Andre, Rest Of My Life

For the rest of my life I wanna be with you
And I never felt this way before
Just tell me that you love me for
The rest of my life I wanna be with you
And I never felt this way before
Just tell me that you love me

Looks like another beautiful day
I've been so happy since you came my way
I've been thinkin' things I've never thought before
Like I never want to see you walk out that door

For the rest of my life I wanna be with you
And I never felt this way before
Just tell me that you love me for
The rest of my life I wanna be with you
And I never felt this way before
Just tell me that you love me

Feels so, feels so good to hear you say
Your words that compel me in each and every way
And each moment that we spend it takes me to that place
I do all I can to keep that smile upon your face

For the rest of my life I wanna be with you
And I never felt this way before
Just tell me that you love me for
The rest of my life I wanna be with you
And I never felt this way before
Just tell me that you love me

Keep on, loving me, love
Loving me, love, loving me, slowly
For the rest of my life, for the rest of my life
Come on, come on, kiss
Kiss me, me, softly, softly

For the rest of my life I wanna be with you
And I never felt this way before
Just tell me that you love me for
The rest of my life I wanna be with you
And I never felt this way before
Just tell me that you love me
For the rest of my life I wanna be with you
And I never felt this way before
Just tell me that you love me for
The rest of my life
