

# Peter Brown, Stargazer

She said she don't love me anymore  
She knows my life will never be  
The way it was before

She wishes I weren't so far away  
But then again, there isn't  
Much she has to say

If I only had some time  
It would be all right  
But I have to be this  
Stargazer every night  
While I'm dancing in  
The beam of a laser light  
I'm dying, I'm trying

She said that she'd find somebody new  
To understand this crazy man  
Is more than she can do

She's sorry it had to be this way  
But then again, it's just another  
Price to pay

If I only had some time  
It would be all right  
But I have to be this  
Stargazer every night  
While I'm dancing in  
The beam of a laser light  
I'm dying, I'm trying

Oh, you gotta believe in something  
You gotta have a dream  
Oh, you gotta believe in someone  
And crazy as it seems  
Oh, you always believed in me

If I only had some time  
It would be all right  
But I have to be this  
Stargazer every night  
While I'm dancing in  
The beam of a laser light  
I'm dying, I'm trying

She said she don't love me anymore
