

# Peter Cetera, Faithfully

Some say it's just the nature of the beast  
When you love somebody so passionately  
Time has a way stealing  
That raging fire you're feeling  
Leaving the ashes laying at your feet

Those fools of little faith will never know  
Those higher places two hearts can go  
Where time is standing still  
And love will burn until  
The heaven and the earth have come and gone

This fire inside for you is constant as the morning star  
And you will be forever in my heart  
As long as there's a river searching for an endless sea  
I will always love you... faithfully

Tonight we'll raise a glass to lovers, across the ages  
We'll hold each other and toast to the day  
When history (is) said and done and we'll still stand as one  
Some things were never meant to fade away

This fire inside for you is constant as the morning star  
And you will be forever in my heart  
As long as there's a river searching for an endless sea  
I will always love you ...faithfully

This fire inside for you is constant as the morning star  
And you will be forever in my heart  
As long as there's a river searching for an endless sea  
I will always love you... faithfully
