

Peter Cetera, Peace Of Mind

Every time I have it made
I let it rain on my parade
I need a star that doesn't fade
When I open my eyes
Everything is clear to see
You've given me a destiny
I know there's something left for me
And I found it this time

(chorus)

I don't want it all, I just want a little bit
And I'll never stop 'til I get to it

Being with a woman like you
Is all I ever wanted to do
Give me something I can hold on to
Then I'll have it all

Find a little place in the sun
Won't you tell me I'm the chosen one
Say you need me when the day is done
Then I'll have enough
To get me through my life

chorus

I never will regret it
'Cause I'm having the time of my life
I can fly on the wings of our love here in the night
Oh, it hurts if I let it
But it's something I'd rather forget
Now the past isn't holding me down
Oh, don't you know
I've learned to let it go
