

Peter Cetera, Rain Love

Rain Rain Love

Rain Rain Love

Rain Rain Love

Rain Rain Love

Threw out my old raincoat

Set sail without a boat

For places somewhere far beyond my dreams

As the sky came pouring down

I lay down on the ground

Like I was dreaming, I let the feeling wash all over me

Rain Love Covered around me

Rain Rain Love Finally found me

This time you're gonna recognise

One drop will open up your eyes

Rain Love

It's the colour of every sky

It's the way to change the tide

When the world is crumbling down on you and me

It's the calm that lifts the storm

It's the promise that keeps you warm

When you don't understand, just touch the guiding hand that comforts me

Rain Love...

Takes this lot to make you realise

No greater love could ever fill the sky

Rain Love....
