

Peter Cetera, Wake Up To Love

Hey baby, you've got nothing to lose
Now's the time to slip away
Oh woman can't you see
I really want you here with me
Hey Mama, I can make you forget
What you ever saw in him
Don't understand
Why you wanna be with that man

The time is right so take it from me
You'll find out when we're alone
Good lovin' follows good company
There's no tellin' what I'll do, when I get next to you

Hey baby, if you look in my eyes
I won't let you get away
Oh woman don't you see
I'd rather have you here with me

Hey Mama, don't you tell me good night
Where's your curiosity
Don't understand
Why you wanna be with that man

The time is right so take it from me
You'll find out when we're alone
Good lovin' follows good company
There's no tellin' what I'll do, when I get next to you

I can't explain
Hope you feel the same
Wanna wake up to love
I know it's true
Can't get over you
Wanna wake up to love

The night is still young
We've got nothing but time
All alone
In our own paradise

The time is right so take it from me
You'll find out when we're alone
Good lovin' follows good company
There's no tellin' what I'll do, I just want to feel it too

I can't explain
Hope you feel the same
Wanna wake up to love
I know it's true
Can't get over you
Wanna wake up to love
