

Peter Frampton, I Got My Eyes On You

Step this way, for a better day
it's quiet insane
knowin' that i came
in from the cold, one track mind
i cant leave behind i dont feel tierd 'cuz im really wild

i'm keeping my eyes on you you,baby
sticking to me,like glue
i got my eyes on you, yaaa
while you do what you have to do

sudden moon can't you play my tune
i walked right in to another room - they let me in
i belive i got you up my sleave - nothings wrong
your're just another weave

i'm keeping my eyes on you you,baby
sticking to me,like glue
'cuz i got my eyes on you, yaaa
do what you have to do

you must only understand the part of me you see
we can start again baby i can let you be
don't want you leavin' before we have a chance
i dont wannna set you free, yea yeaaa

(guitar solo)

well i'll catch a plane
or better take a train
don't give up when ya brake the cup
let you be above the sea witout a phone
got to live i'm on my own

keeping my eyes on you you,baby
sticking to me,like glue yeaaa yaaa
i got my eyes on you, baby
while you do what you have to do
